The Problem

The Solution

- Former abortion providers tell us that **peaceful sidewalk advocacy / sidewalk counseling was the activity that most devastated their business.**
- Former Planned Parenthood Director Abby Johnson says that **when there's a peaceful, prayerful outreach presence at an abortion facility, Planned Parenthood regularly documents up to a 75% cancellation rate!**
- *And Then There Were None (ATTWN)* abortion worker ministry says that **over 70% of workers contacting their ministry for help received information from someone on the sidewalk.**

Election 2016

Election 2016: 6 Ways a President Affects the Pro-Life Movement

1. **Supreme Court Nominations:** There could be as many as 3 or 4 vacancies this next Presidential term that will determine policies for generations to come; we are likely 1-2 votes away from overturning *Roe v. Wade*.
2. **Federal District and Appellate Court Appointments:** The President will also name judges to 94 federal district courts and 13 appellate courts.
3. **Executive Branch Appointments:** Every President fills 7,000+ positions in the White House, federal departments / agencies, and advisory panels. When laws are passed, typically, these appointees are the ones who write regulations that can determine how laws are interpreted and implemented.
4. **Executive Orders:** With the stroke of a pen, a President can decide that taxpayers will have to subsidize the taking of innocent human life, or he / she can decide that such funding may not take place. *Examples include...*
 - *The Mexico City Policy* – which prevent federal tax dollars from going to organizations that perform or promote abortions overseas
 - Those that prohibit or allow the federal funding of *embryonic stem cell research*
 - Those that prohibit or allow taxpayer funds to go to the *United Nations Population Fund*, which has aided China's forced abortion policies
5. **The Federal Budget:** Each year, the President submits a spending plan to the House of Representatives which sets the debate regarding spending priorities and programs to be funded or cut.
6. **The President's Veto:** A pro-life Congress can pass various legislations to protect life, but unless both the House and Senate have super pro-life majorities (290 seats in the House; 67 in the Senate), a pro-abortion President can kill any legislation with his veto. On the flip side, a pro-abortion Congress can be stopped by the veto of a pro-life President. **(NOTE: We were one Presidential signature away from defunding Planned Parenthood nationally this past January! President Obama vetoed legislation that would have ended \$400 million of the \$500 million+ in taxpayer funding going to Planned Parenthood for one year.** This would have redirected Planned Parenthood's public subsidies to comprehensive community health clinics that offer more health services and outnumber Planned Parenthood facilities 20 to 1.)

Election 2016: Why Vote Pro-Life First

- **Abortion is the greatest cause of death in the history of the world: 59 million children have lost their lives in the U.S. alone**
- **This is a present-day holocaust; nothing is more urgent**
- **LIFE is the foundational right from which all other rights flow**
- **Some candidates have pledged to expand abortion with the help of our tax dollars**
